NOTES

AWAKE RECORD:

observation;

The background activity is formed by faster beta rhythm (~13 Hz) responding to eye opening and mental alerting.

There are no spikes, sharp waves or polyspikes noted.

There is no abnormal slowing.

Hyperventilation showed normal theta built up.

HV, Post HV and photic stimulation didn't potentiate any abnormalities.

IMPRESSION;

The digital EEG is normal.

To correlate clinically.

DR.M.MOHAMED KILJI MD.,DM[NEURO]
Consultant neurologist.

Dr. M.MOHAMED KILJI MD,DM.
